

Our commitment to supply quality product according to Act 36 of 1947
(Republic of South Africa and Republic of Namibia)

This letter serves as confirmation of the commitment of Bester Feed and Grain (Pty) Ltd, towards the supply of animal feed commodities and products, including chemical additives, which are dually registered according to the regulations and guidelines of Act 36 of 1947, as amended (The Animal Feed Act). In the event of Bester being the principal importer or supplier, we carry our own product registration list. Special effort is made to ensure that the product is registered when sourced from other suppliers.

As a member of AFMA, Bester is also committed to the principles of Good Manufacturing Principles, as formulated by AFMA. In accordance with that, all our chemicals are supplied with a Certificate of Analysis, for each batch supplied. In general, regular laboratory testing is done on our products, and analytical as well as technical data on each product can be obtained on request.

Bester supplies its products based on a Standard Sales Contract. In addition to that, our Standard Terms and Conditions of Trade form part of our Credit Application Approval. The Standard Terms and conditions of Trade are also available from our website www.bester.co.za. Special care is taken that the quality clause reflects the nature of the product. A clear indication is given on the procedures to be followed in the event of a possible deviation of quality.

Independent surveying and testing are advocated. The allowances for deviations on nutrient levels, as well as the cost of testing, are borne by the party at fault.

BESTER SA V NUMBERS	
Product	V Number
Ammonium Chloride	V18651
Ammonium Sulphate	V22221
